Robert "RJ" Michael

Objective

I will obtain a Bachelor's degrees in Computer Science and Engineering. I plan to use this degree to work for a tech company to learn, build relationships, and work with like minded individuals. I also plan to help educate and inspire young students in Alaska about Computer Science. Another possibility is to pursue higher education researching artificial intelligence/machine learning.

Professional Experience

Program Coordinator 10.2020 – 09.2022
Southcentral Foundation Anchorage

- Works closely with the operations team to ensure clinic runs efficiently by communicating and suggesting ideas to improve work flow.
- Communicates with all 60 clinic employees for any updates or needs that they request.
- Organize social events for clinic staff. This includes placing orders, driving to location, and setting up.
- Order supplies for the clinic ex: medical devices, general office supplies, computers/laptops, phones, etc.

Administrative Support 12.2018 – 10.2020
Southcentral Foundation Anchorage

- Creates, develops, and nurtures culturally-appropriate interactions and connections with each other, customer-owners, and the community.
- Answers telephones and directs calls to appropriate staff member or department.
- Assists customer-owners by providing accurate information that meets the customer-owners' needs the first time.

Education

Diploma 05.2017
Bethel Regional High School

BS in Computer Science and Engineering 12.2024
University of Alaska Anchorage
